MISSOURI State News

Jefferson City.- Majority and minor ity reports from the convention's Committee on Corporations were made to the Constitution Convention. The majority report was signed by 14 of the 15 members of the committee. The majority suport would leave 20 sections of the present article on corporations unchanged. It would make only five changes of consequence. Under it common-law business trusts, beneficial in terest in which is divided into transferable certificates of participation, would be defined as corporations and regulated as such. Shareholders in banks and trust companies bereafter organized would be subject to double liabilities under the committee report. This change was sought by state bankers who want their institutions placed on a par with national banks. Double liability means that in case of disaster to the bank or trust company, each stockholder would be liable for \$200 for each \$100 of stock owned.

CARE ESSENTIAL FOR YOUNG CALF

Young Animals Should Be Fed Separately in Stanchions, Meyer Together in Trough.

BREEDING OF BIG IMPORTANCE

Breeder Should Be Careful to Give Them Same Amount of Milk at Same Temperature From Clean Buckets Every Day.

The first important factor in raising good healthy calves is breeding, and the second is the care they receive before maturity.

The proper feeding of the calf be gins before it is born. Cows in a poor condition give birth to weak calves that are difficult to raise. A cow should be "dried off" at least six weeks before calving. When about to "freshen" she should be given a clean stall to avoid danger of infection. If there
